

This SY' 25-26 school plan has been approved at the building-level by the Principal and Teacher Leadership Team, and is final pending SEZP Board approval later this school year.

- Student Early Release + PD until 3:09pm

1. Staff work year calendar and calculating total educator time

The calendar tool is built to give schools flexibility on the types of days (known as ‘day types’) that their school will follow during the following school year. The calendar tool correctly determines the total hours and salary based on calculations aligned to our Collective Bargaining Agreement (CBA). Student and staff calendars are then generated based on the information entered in Tab 1 of the calendar tool. The decisions made on the calendar tool will then become the school-specific Educator Working Conditions. This template will extract educator hours to provide everyone with a clear understanding of what is expected for total educator hours for the upcoming school year.

Part 1: School year hours

These hours reflect “**school year hours**” which is 180 days of instruction with students plus any professional development days during the school year (traditionally 3) and the 5 days of August professional development that occurs just before students begin the year.

			Grades 6-8		
Day Type	Staff Category	Start time	End time	Hrs: Min	
1. Regular Day for Students and Staff	Regular Day	7:15 AM	3:09 PM	7:54	
2. Mid Term	Mid Term	7:15 AM	3:09 PM	7:54	
3. Half Day	Half Day	7:15 AM	11:35 AM	4:20	
4. No School for Students/Full Day Staff PD	Full Day PD	8:30 AM	3:00 PM	6:30	
5. Tuesday Extended Day PD	Regular Day + PD until 4:15	7:15 AM	4:15 PM	9:00	
6. Early Dismissal 1PM	Early Dismissal 1PM	7:15 AM	1:00 PM	5:45	
7. Early Dismissal for Students and Regular Day for Staff	Student Early Release and PD until 3:09 PM	7:15 AM	3:09 PM	7:54	

Part II: Additional educator hours

Teachers may be required to participate in professional development activities, or student-related activities throughout the school year, including before and after the school day for students, and before or after the school year starts and ends.

These hours will be included in the total educator work hours and payment will be calculated into an educator’s annual compensation. This does not preclude teachers from independently scheduling individual parent-teacher meetings or other meetings as needed. Because compensation varies before the ‘traditional’ start of school, which in SY 25-26 is August 18th, please be sure to use the correct table to record (and transfer) events from your calendar tool into this document.

A. Summer Events Prior to August 18th

Event Description	Date/Time	# of Staff Hours in gr. 6-8
N/A	N/A	N/A
TOTAL ADDITIONAL SUMMER HOURS BEFORE 8/18/25		0 HRS

B. Other Events on or After August 18th

Event Description	Date/Time	# of Staff Hours in gr. 6-8
Welcome Back BBQ	August 22 (3-6:00 pm)	3
Open House/Fall Celebration	October 22 (4:45-7pm)	2.25

Student Led Conferences	March 11 (3:10 -6:32pm)	3.32
Spring Celebration	April/May (3:09 - 6:15pm)	3.1
TOTAL ADDITIONAL SUMMER HOURS ON OR AFTER 8/18/25		11.67 HRS

Part III: Total educator hours

The total educator hours are a combination of “school year hours” and planned “additional events” that require educators’ presence that fall outside of the typical workday.

Hours	Summer PD Hrs	School Year Hrs	Other Events	Total Hrs	Day Count
Gr. 6-8 Staff Hours	0	1463.33	11.670	1475.003	189

2. Staff workday

- Teachers will receive a 30-minute duty-free lunch
- Educators will have – at minimum - the equivalent of 350 minutes over ten consecutive school days of self-directed preparatory time. These minutes will be allocated across the ten days as evenly as the schedule permits. Schools will strive – as the schedule allows – for educators to have no more than one day each week when the educator does not have self-directed preparatory time. This self-directed time can be used to plan, grade, collaborate with colleagues, etc. In extenuating circumstances, teachers may be asked to perform some duties during this time. On that day, the teacher must have an equivalent non-instructional period.

In addition to traditional responsibilities in a typical workday, all staff may be expected to be involved in educational and administrative activities that are necessary to fulfill the mission of the school. These activities may include, but are not limited to:

- Phone calls to families about the academic progress of students;
- Preparation of individual student weekly reports, progress reports, and report cards;
- Working regularly with school administrators and colleagues to improve one’s instructional practices;
- Regularly checking student work and clipboarding to track student progress and give consistent feedback
- Attending student-related meetings; and
- Serving as a mentor to a small cohort of students;
- Participate in staff recruitment and hiring processes.

3. Additional staff duties

A. During the Workday

During a typical Monday-Friday school day work week, all staff members are expected to perform additional duties that the Principal and the TLT have determined are necessary to fulfill the school’s mission, operations, safety, and overall improvement efforts. This may include coverage of homeroom, community building or safety-related activities, including, but not limited to (examples are below but a school can customize):

- Types of tasks educators may be asked to perform may include coverage of lunch, coverage of break periods, safety-related assignments. All efforts will be made to avoid teacher prep time or counseling services to students;
- Substitute coverage of classes and duties of others who are absent from school;
- Development and maintenance of hallway bulletin boards

If a teacher is asked or directed to perform these duties during the contractual lunch break, self-directed preparation periods or during collaboration time, they shall be compensated at \$35 per/occurrence.

B. Afterschool Support for Students

All educators will work after school each week to provide after school help not exceeding 0 minutes per week.

4. Professional learning

All educators are required to participate in professional development activities throughout the school year, including before and after the school day for students, and immediately before or immediately after the school year starts and ends as outlined in section 1 above from the calendar tool. Most professional learning activities should be connected to TLT identified priority levers and the capacity and skill building needed to help the school reach their improvement goals.

All staff members are expected to participate in professional development, collaboration activities and/or PLC meetings, unless otherwise directed by the principal.

5. School curriculum issues

The school's curriculum will be aligned with the Massachusetts State Curriculum Frameworks and receive a high rating for quality and rigor as defined by [Edreports](#). In instances where highly rated curriculum is not available, teachers may be asked to assist in developing new and improved curricula for their own use and that of other teachers in the building. To the extent possible, teachers will be made aware of curriculum changes in advance and will have an opportunity to provide feedback.

6. Notices and announcements

All educators will be notified 2 weeks in advance of special events which will involve students such as Zone, district, or school mandated assessments, health testing, assemblies, etc. Classroom interruptions for notices or public address announcements will be kept to an absolute minimum.

7. School health and safety issues

The school will make every effort to provide appropriate materials, space, and technology to support effective teaching and learning. Security of school premises will be maintained. Visitors to the school will be required to check in upon entry and all members of the school community are expected to monitor visitors without badges and immediately report these instances to the main office or security desk.

Every effort will be made to mitigate painting or repairs to buildings while school is in session, to avoid distractions or interruptions to student learning.

8. Staff dress code

Staff are asked to dress professionally for a school setting*. Excessively casual clothing such as ripped jeans, revealing clothing, basketball shorts, sweatpants (non-JFK), beach wear, and flip flops are not permitted. Headphones in academic settings and hallways are not permitted. Hats are not allowed to be worn in the building during school hours.

* PE Teachers can wear athletic wear

** Some exceptions may apply including religious exemptions

9. Class size

Efforts are made to ensure a reasonable class size for students and educators. Class sizes may be differentiated, to support student learning and teacher development and/or to support a school's specific model (e.g., co-teaching, dual language, etc.). Reg Ed Class Size - 32 and under SPED Class size - 8 and under if over a para will be provided

10. Bulletin boards

The Springfield Education Association (SEA) will be provided a clearly designated bulletin board for the purpose of posting Association-related notices and other materials. Such space will be provided in each building for the exclusive use of the Association. \$500 Stipend for a staff member who maintains the bulletin board for each grade level.

11. Family-teacher communication

Class Dojo is the main line of communication and the family facilitator will do everything they can to ensure all families are signed up on Dojo. Relationships between educators and families/caregivers are critically important to the overall academic success of a student's school experience. Educators are required to make regular phone calls/DOJO to families about the academic progress of students, as well as respond to family inquiries via email, phone or in-person meetings throughout the school year. Any student who has a C- or lower at progress report time must receive communication home to families. Educators are not required to respond to families outside of the work day/week. If assistance is needed in contacting families please contact the Dean/Counselor of the grade. If contact still does not occur the Dean/Counselor will incorporate our family facilitator.

12. TLT elections for the next school year

Teacher Leadership Teams play an essential role in planning and decision-making in SEZP schools. While the TLT itself is a permanent body, the composition and dynamics of the team will change annually as individual TLT members' terms expire, and new members are elected. It is important that TLT elections take place in a timely fashion at the beginning of each school year to ensure the TLT can operate effectively on a continual basis. For the coming school year, our TLT elections (for any open positions) will be held on 09/09/2025.

School Priority Levers Form: J.F. Kennedy Middle School

Ways in which the faculty was engaged in Phase 1 of School Planning:

- TLT members presented mid-year data to the faculty at the GLT
- TLT members met with the educators they represented and brought their thoughts and ideas to a TLT meeting to refine the draft of the Phase 1 templates (educator working conditions, priorities, calendar)

Priority 1

Selected Lever: Level 2

Text of Lever: Coherent Actions for Improving Assurances for Educational Equity, which include the following:

- Instructional Leadership for Equity
- Curriculum and Instruction
- Feedback System for Building Educator Capacity
- Professional Learning and Collaboration

What is our most concerning data, and what are some working theories of what needs to improve to drive better results?

Student Ownership and Curriculum and Instruction

Data:

Equity and Improvement Lever #2

Coherent Actions for Improving Assurances for Educational Equity

Indicator	Standard of Practice	Rating
2a: Outcomes for All	Across classrooms, teaching strategies consistently provide multiple entry points into the curricula so that all learners, including emerging bilinguals and exceptional learners, are engaged in appropriately challenging tasks and are moving toward or beyond grade-level work performance.	Developing
2b: Student Ownership	Across classrooms, student work products and discussions demonstrate student ownership of the thinking.	Developing
2c: Instructional Team Effectiveness	The Instructional Leadership Team or TLT (depending on the unique design of school teams), consisting of School Leaders, Master/Advanced Teachers and/or Lead Teachers, drive instructional improvement that is consistent with the instructional vision in the school by meeting on a weekly basis to observe and analyze teacher practice across the school and identify high-leverage professional development topics improve practice.	Developing

In the initial meeting with school leaders on the day of the SQR, leaders stated that the instructional vision at Kennedy Middle School is to provide students ownership over a standards-based curriculum. According to one leader, the expectation for teachers was to “give students the grade-level curriculum, but support [learning] when [the students] need it.” However, across the ten classrooms observed on the day of the SQR, there were inconsistent opportunities for students to demonstrate ownership of their thinking during lessons. In core content and intervention classrooms, teachers owned the thinking in the classroom and did not provide students the opportunity to engage in productive struggle. For example, during an eighth-grade science lesson, the teacher asked for volunteers to share their answers to a question. One student answered. The teacher confirmed the student was correct

and explained why the answer was correct instead of inviting more students to participate in the discussion and thinking. During a seventh-grade math intervention lesson, students split into small groups. In the group working with the content teachers, students and teachers worked through review word problems involving ratios. The teacher did not provide an opportunity for students to attempt the problem independently; instead, the teacher walked students through the problem step-by-step, providing leading prompts that included how to correctly set up the ratio table. One possible reason for this lack of opportunities for student ownership is that teachers did not provide multiple entry points for students into the standards-aligned curriculum. Knowledge of the standards was evident in the content of the just-in-time remediation lessons observed during intervention classes. However, there were no effective scaffolding strategies implemented to support students in accessing the content and/or owning the thinking during instruction in either content or intervention classes.

In addition, student engagement was inconsistent in observed classrooms. In most classrooms observed, only a handful of students raised their hands in response to a teacher's question. Classroom discussions usually involved less than five students. Discourse often was between a teacher and a handful of students rather than between students. The student-to-student discourse was observed in only one out of ten classrooms. During the student focus group, students shared that in some classes there are a few students who consistently raise their hands, and teachers tell those students to put their hands down in order to give other students a chance to answer. The observed instructional practices do not align with leaders' expectations for what should be seen in classrooms. Leaders stated that they expected teachers to "use instructional routines such as think-pair-share or the math discussion protocol to help [students] access the curriculum." Leaders also stated, "In math classes, we should see a lot of talking between students—working together, thinking, talking, sharing." The impact of this inconsistency in student ownership is that students reported not feeling challenged. When asked to describe a challenging task, assignment, or project that they had completed this school year, students struggled to name one. A few students listed tasks they had completed during their enrichment classes; none listed tasks from their core content classes.

Working Theory: We believe that if Kennedy MS develops a clear instructional vision that articulates what educators and students are doing and what tasks should be when they are from high quality instructional materials and on grade level, and educators continue to develop skills and competencies to teach in these ways, then coaches and administration can give effective and targeted feedback to rapidly develop skills to help us meet our instructional vision.

What questions or information will be needed to refine your theory of action and set goals in this priority area?

- How do we continue to stress Kennedy's instructional vision statement throughout the year?
- Does our instructional vision reflect our desire to have data-driven instruction in our classrooms?
- Ensure that TLT and ILT drives the Professional Development throughout the year with Admin.
- How do we create more time for Vertical meetings and observation feedback meetings?
- How do we align our systems so that students are getting formal and informal feedback on a regular basis in each classroom?
- Ensure staff is familiar with the curriculum during PD to be able to not only teach the lessons but adopt them as their own and build upon them.
- Continue the push for agendas and clipboarding everyday - build this to standards-based clipboarding
- Continue to have teachers collaborate on strategies used to engage all students and allow multiple points of entry.
- Build a system to show that students are taking ownership of their work
- Professional Development session on breaking down the instructional vision statement

Priority 2

Selected Level: Level 3

Text of Level: Addressing Unfinished Learning or Acceleration through Student-Specific Supports for Behavior and Academics

What is our most concerning data, and what are some working theories of what needs to improve to drive better results?

Equity and Improvement Lever #3

Addressing Unfinished Learning or Acceleration through Student-Specific Supports for Behavior and Academics

Indicator	Standard of Practice	Rating
3a: <u>Intervention System</u>	Students are scheduled flexibly to receive up to three regular doses of intervention support with intentional frequency, duration, and focus aligned to individual student needs and based on real-time data and progress monitoring. Targeted interventions are personalized for each learner and are delivered in three distinct "tiers" during primary core instruction, specialized secondary intervention classes, and/or intense tertiary intervention groups. A master schedule that supports flexibility in scheduling students, a robust data system for collecting universal screening data for academics and behavior, and a team to regularly monitor and react as a mechanism for progress monitoring are essential to an effective system.	Developing
3b: Effective Response to Intervention Team	One or more Response to Intervention Teams carefully monitors student progress resulting from three tiers of intervention. Teams use carefully identified entrance and exit criteria to make decisions on tier dosage and distinct, research-based types of intervention delivered in each dose. Progress monitoring informs the team's decisions to ensure selected interventions yield measurable student impact within 8-12 weeks. Teams identify any teacher support needed to make intervention delivery successful. Teams can be structured to be grade level, content-based, or cross-sectional based on school size and context. The Response to Intervention Team is in addition to the "STAT Team."	Developing

Data: This SQR was a decline from last year mainly due to staffing due to budget cuts. It is necessary to adjust our intervention systems despite the fact that we had the highest growth numbers in Kennedy's history. As of now our intervention system utilizes two classroom teachers in the subject that utilize data to group students, develop stations for students and have targeted intervention at the student levels. We are still flying high in MAP results but on a qualitative level staff is not receiving the push-in to do the intervention method with fidelity.

Working Theory: If we develop a schedule that drives intervention during 1 block in the morning for the whole school, then students can be grouped by level and will receive tier 3 intervention that will allow for staff to monitor progress and ensure that students will move fluidly through each tier, will drive learning and will be focused on students at their level. This will help improve student outcomes.

What questions or information will be needed to refine your theory of action and set goals in this priority area?

- How does this fit in the schedule?
- Will this be done on a whole school level or by grade level?
- Who monitors the data and makes decisions for the fluid movement of students throughout levels?
